

Assistant to DD/I (Admin)

13 July 1956

Special Assistant, OBI

**Proposed Schedule for Intelligence Phase of
Basic Orientation**

REFERENCE: Your memorandum of 28 June 1956 forwarding Subject Schedule

1. The Assistant Director, Deputy Assistant Director, and I have reviewed the proposed schedule for the Intelligence phase of the revamped Basic Orientation Course. The consensus is that the proposed schedule as a whole provides as complete and rounded a picture of the over-all intelligence activities and responsibilities of the Agency as is possible in ten classroom days. One question arises over the extent to which the newcomer to intelligence is made aware of the nature, mission, and functions of the other IAC agencies in the Intelligence Community. Although elements of this would no doubt emerge from such lectures as "Introduction to Intelligence" and "History of American Intelligence," it would be well to have an hour's lecture discussing the intelligence community early in the course, even at the risk of some duplication

25X1A9a [REDACTED] remarks in his CIA Introduction Course.

2. We believe a representative from OBI should give the scheduled lecture on the National Intelligence Survey, and request that this information be passed to the Chief, Intelligence School, so that necessary arrangements can be made.

3. We would be glad to participate in any meeting with representative of training you might call in connection with the proposed schedule.
